

## APPLICATION FOR BREEDING FEMALE REGISTRATION

### Overview of process to register a Breeding Female

- 1) Please answer all questions and sign the application form and ensure all parties sign the application.
- 2) Please Attach the following:
- 3) **Greyhound Identification Card:**  
You must return the Greyhound's Racing Identification Card along with this application. A new Pink Breeding Identification Card will be issued if the application is approved. This Pink Card can be used if the Breeding Female is still racing.
- 4) **Greyhound Vaccination Card:**  
You must attach a copy of your Greyhound's Vaccination Card with current proof of C5 (including date administered, name of veterinary practice, vet's name and signature).
- 5) Please note the following:
- 6) All Greyhounds must be microchipped by an approved Queensland Racing Integrity Commission (QRIC) Microchip Implanter prior to submitting a Breeding Female ID Card Application.
- 7) All Greyhounds must be DNA Fingerprinted by Greyhounds Australasia prior to submitting a Breeding Female ID Card Application.
- 8) The owner or intended breeder of the breeding female must be a licensed breeder with QRIC.
- 9) A Breeding Lease must be lodged with this application if the owner does not have a Breeders Licence or does not intend to be the breeder of this Breeding Female.
- 10) If the Breeding Female has already whelped 3 litters or is older than 8 years of age a Breeding Female Exemption Application must be completed and lodged in addition to this application.
- 11) If the Breeding Female is no longer racing a complete Retirement Notification Form must be completed by the owner and lodged with this application
- 12) Pay the application fee as per the current fee schedule:  
<https://www.gric.qld.gov.au/licensing-and-ownership/schedule-of-fees-and-charges/>
- 13) Send your complete application including your receipt/reference number to the QRIC.

Submission of this application does not guarantee approval. Applications may be deferred for further investigation, interview or for any other reason at the QRIC's discretion. Should you have any queries in relation to the completion of this form, please contact Licensing on Ph. 1300 087 021.

Failure to submit any of the supporting information will result in your application not being considered.

**\*\*\*\*\* Pay the application fee as per the current fee schedule:**

## RULES & CONDITIONS FOR REGISTERING A 'BREEDING FEMALE'

### **Breeding Female Registration:**

**R127 (6)** A bitch shall not be used for breeding purposes unless registered as a 'breeding female'.

**R127 (8)** Application for registration as a breeding female may be made by the owner or authorised person by lodging with the Controlling Body [or delegated authority] in the state in which they reside –

- (a) a completed prescribed form with any fee that may apply; and
- (b) at the expense of the applicant, a DNA fingerprint analysis carried out by a laboratory designated by Greyhounds Australasia on a sample taken by a veterinary surgeon or other person approved by the Controlling Body; and
- (c) evidence of a current vaccination status against parvovirus, hepatitis, canine distemper, parainfluenza virus and bordetella bronchiseptica (C5) issued by a veterinary surgeon identifying the greyhound by reference to its sex, colour, ear branding and/or microchip identifications and stating the next vaccination/booster due date.
- (d) **The period of registration will be for one (1) year from the current vaccination date pursuant to sub-rule (c).**

### **Breeding Restrictions:**

**R127 (10)** The owner of a breeding female, or the person with authority to breed that female, shall not cause her to be mated if that breeding female is over eight (8) years of age without prior veterinary certification of appropriate health and fitness, and the approval of the Controlling Body [or delegated authority] in writing. The approval granted by the Controlling Body [or delegated authority] under this sub-rule will be to allow one (1) service/insemination only, irrespective of the result of said service/insemination. The veterinary certification must be obtained within 120 days prior to the date of the service.

**R127 (11)** A breeding female cannot be used for breeding more than three (3) litters without prior veterinary certification of appropriate health and fitness for further litters, and the approval of the Controlling Body [or delegated authority] in writing. The approval granted by the Controlling Body [or delegated authority] under this sub-rule will be to allow one (1) additional service/insemination only, irrespective of the result of said service/insemination. The veterinary certification must be obtained within 120 days prior to the date of the additional service.

**R127 (12)** The owner of a breeding female, or the person with authority to breed that female, shall not cause her to whelp more than two (2) litters in any 18 month period.

### **Identity Confirmation:**

**R127A (1)** Prior to any service or artificial insemination, the appropriate registered person shall, by reference to its Greyhound Breeding Identification Card, positively identify the breeding female presented to be served or inseminated. The appropriate registered person shall also, prior to any service or artificial insemination, confirm that the breeding female is currently eligible for breeding. Should there be any doubt over the identity of the breeding female or her eligibility for breeding, the person carrying out the identity examination shall, forthwith, inform the Controlling Body [or delegated authority] of the doubt and ensure that the breeding female is not served or inseminated until the doubt has been resolved.

**\*Please Note:** Ongoing registration as a Breeding Female will require you to maintain current vaccination status – details of booster vaccinations will need to be provided each year or she will not be eligible for breeding.
