

Stewards' Report

Stewards' Report – Christine Pollard

Date – 3 August 2016

Panel - G Meek, J. Challen

Stewards today conducted an inquiry into a report from the Queensland Government Racing Science Centre that a urine sample obtained from This Time Mary after competing in race 9 at the Rockhampton Greyhound Racing Club's meeting on 27th April 2016 was found upon analysis to contain the prohibited substance Pentobarbitone.

Confirmatory analysis was completed by the Analytical Services Racing Science Centre on the referee portion of this sample which confirmed the presence of Pentobarbitone in both the urine sample and the control solution.

Evidence was today provided to the inquiry by Mrs Christine Pollard the trainer of This Time Mary.

After consideration was given to all the available evidence, particularly the report from Analytical Services that Pentobarbitone was present in the control solution, Stewards could not be comfortably satisfied that Mrs Pollard has breached GAR 83(2) for presenting This Time Mary in the above mentioned race when not free of a prohibited substance and therefore took no further action.
