

Steward's Notice

21 June 2018

Warning about products containing altrenogest

Trainers are advised that Racing Victoria's Integrity Services Department has issued a warning that products containing altrenogest may contain trenbolone and/or trendione.

Trenbolone and trendione are permanently banned substances with the potential for prolonged detection times.

Further investigation, including by manufacturers of altrenogest products, is underway and the QRIC will provide updates as more information becomes available.

Trainers are further advised that the notice issued by Racing Victoria recommends that the use of altrenogest-containing products be discontinued immediately until further notice.

Trainers and veterinarians should take this information into account when using products containing altrenogest.

ENDS
